## Father John's Medicine

For Dangerous, Obsolete Colds. No Injurious Drugs.

Never wait for a cold to wear off—it wears away the lungs instead. Neglected colds often lead to pneumonia. Father John's Medicine gives prompt relief from colds and throat troubles.

Guaranteed free from alcohol and nerve-debilitating drugs upon which many medicines depend for their temporary effect, and which are dangerous, because they weaken the body and allow the disease to get a deeper hold.—Advt.

## IT STOPPED MY SUFFERING.

Said Mrs. Jaynes, Speaking of Lydia E. Pinkham's Vegetable Compound.

"I got into an awful condition with what the doctors said was an organic displacement. I would have pains so badly that they would have to put hot cloths on me and give me morphine. The doctor said I would never be any better without an operation and I would never have any children without it. A neighbor who knew what your medicine would do advised me to give Lydia E. Pinkham's Vegetable Compound a trial. I did so and it made me a well woman and the next September I gave birth to a healthy baby boy."—Mrs. Sallie Jaynes, 37 Lyon St., Anderson, S. C.

The letters which we are constantly publishing from women in every section of this country prove beyond question the merit of this famous root and herb medicine, Lydia E. Pinkham's Vegetable Compound.—Advt.

## Sufferers From Kidney Ailments Should Remember This

Swamp-Root has attained a position among kidney preparations which is surpassed by none. This has been brought about simply by its own worth, as no remedy can survive unless it possesses qualities of curative value. Our customers say Swamp-Root is satisfactory and our opinion, as druggists, is that it must be good or it would not be a good repeater.

Very truly yours,

The H. A. Sanders Motors Corporation, No. 1876 Broadway, closed a contract last week for the agency of Case motor cars.

Jack Hasbrouck, sales manager, is highly elated over the idea of presenting a car of dependable quality and the product of such a factory as J. I. Case Threshing Machine Co.

**GIRLS! MOISTEN A CLOTH AND DRAW IT THROUGH HAIR**  
It becomes beautifully soft, wavy, abundant and glossy at once.

Save your hair! All dandruff goes and hair stops coming out.

Surely try a "Dandeline Hair Cream." If you wish to immediately double the beauty of your hair, just moisten a cloth with Dandeline and draw it carefully through your hair, taking one small strand at a time; this will cleanse the hair of dust, dirt or any excessive oil—in a few minutes you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance.

Besides beautifying the hair, one application of Dandeline dissolves every particle of dandruff; invigorates the scalp, stopping itching and falling hair.

Dandeline is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will spend a few cents for a bottle of Knowlton's Dandeline at any drug store or toilet counter and try it as directed.

Save your hair! Keep it looking charming and beautiful. You will say this was the best money you ever spent.—Advt.

## FIRST CHALMERS-MAXWELL GATHERING HELD IN N. Y.

Marking the first public assembly of Chalmers and Maxwell dealers from all parts of the United States, T. J. Toner, Director of Sales, presided over a rousing wartime dinner last Friday night in the banquet room of the Biltmore Hotel.

Between 400 and 500 men attended, including publishers, distributors, dealers, factory officials and newspapermen of this and other cities.

The speakers were: Isaac Marcusson, expert on war economy; Edmund J. Catell, the statistician of Philadelphia; Arthur Brisbane of the Washington Times; and Herbert Kaufmann, newspaper and magazine contributor.

Walter E. Flinders, Chairman of the Board of Directors of the Maxwell organization, was unable to attend the banquet, but sent a message to the dealers assuring them he could supply all the cars they required and also take care of any demands which might be made by the Government.

## REPUBLIC RUBBER AIDS CONSERVATION

In line with the policy of leading manufacturers to aid the Government in every way in the conservation of materials which are required for war purposes, the Republic Rubber Corporation announces to the trade that after Feb. 1 it will discontinue making a number of brands of mechanical rubber goods in which it believes there is an extravagant use of cotton duck.

Guy E. Norwood, President of the Republic Rubber Corporation, says: "This company feels that its customers in the purchase of mechanical rubber goods can best be served and the savings of cotton conserved by the use of cotton duck only in products best suited to give maximum service at a minimum cost."

**CADILLAC ELECTS NEW MANUFACTURING HEAD**  
John F. Guider, formerly factory superintendent of the Pierce-Arrow Motor Car Company and an executive of that concern for more than twelve years, has been elected Vice President of the Cadillac Motor Car Company, in charge of manufacturing.

Mr. Guider has already assumed work in his new capacity at Detroit. He says: "It has always been my policy to build a first class product and to improve it, and what I have seen at the Cadillac shops I have been impressed by the desire of every one to do exactly that thing."

**A BRONX AUTO SHOW.**  
Members of the Bronx Automobile Dealers' Association did not lose any time during the National Automobile Show in Grand Central Palace last week. They from the Bronx Borough were present at many of the booths of cars which they represent in their locality, and they were conspicuously a white oval badge with the name "Bronx" on it. These men are booming the First Bronx Automobile Show, which is to be held Feb. 9-16 in the Second Field Artillery Armory, Franklin Avenue and 166th Street.

D. J. Barrett is Chairman of the Show Committee, John B. Elsey, William Moller, Joseph Myer and others (all Bronx dealers) are making strong efforts to make this show a great success.

**WILL HANDLE USED CARS.**  
With hundreds of buyers seeking dependable used cars, the business of bringing the used car and the used car buyer together has undergone a great change in this city in the last year.

"The used car buyer represents a potential possibility for us that is greater, I believe, than in the instance of a new car buyer," says J. Aborn, President of the Lobell-Aborn Co., 239 West Fifty-fifth Street. This company has been chosen by Harry J. De Bear to handle exclusively all used cars that are taken at the Maxwell New York branch in Columbus Circle, of which Mr. De Bear is manager.

## An Unfailing Way To Banish Hairs

(Beauty Notes)  
Ugly hairy growths can be removed in the privacy of your own home if you get a small original package of delatone and mix into a paste enough of the powder and water to cover the hairy surface. This should be left on the skin about two minutes, then removed and the skin washed and every trace of hair will have vanished. No harm or inconvenience can result from this treatment, but be sure you buy real delatone.—Advt.

## Sugar and Ships

In the interest of the public it serves, the American Sugar Refining Company is earnestly supporting the Government's policy to regulate the supply of sugar so that it shall be sufficient for the needs of all—our soldiers, our Allies and ourselves.

With the new crop of cane sugar coming in, the sugar situation is more favorable than it was a month ago. There will be sugar enough, according to present indications, if extravagant use and waste are avoided.

War has disturbed the whole world's sugar supply. It has not only wiped out any available surplus, but it has put all nations on a hand-to-mouth basis.

The European Allies were the first to feel the pinch. Before the war, enough sugar was produced on the Continent to supply all Europe. Today, two-thirds of this sugar-producing area is within the battle lines.

England, France and other nations have had to turn elsewhere for a supply of this indispensable food.

And they came to Cuba—the main source upon which the United States depends for its cane sugar. During 1917, Cuba sold and shipped to Europe nearly 1,000,000 tons of raw sugar—one-third of its crop.

In addition to the normal increase in the consumption of sugar as food in this country, the nation-wide movement to save the fruit crop last season greatly increased its use.

But this increased consumption of sugar has been a real factor in combating waste. It enabled the American housewife to add to the store of the food of the nation at a time when fruits and vegetables were plentiful and cheap.

The sugar is not only in the fruit jar, but it has carried into the pantries of the country a vast supply of fruit and vegetables which would otherwise have been lost. Sugar itself is not only a food, but it is also the great preserver of other foods.

As the demand for sugar grew, both here and abroad, Cuba's supply was exhausted last fall. Every available ton in Porto Rico and other cane sugar countries was acquired. But this was not enough, and the shortage came.

In war time and at all times it is our aim to safeguard the interests of the public we serve.

## American Sugar Refining Company

"Sweeten it with Domino"  
Granulated, Tablet, Powdered, Confectioners, Brown

At the same time, an abundance of sugar was and still is locked up in far-away Java, as unavailable as unmined gold—because ships cannot be spared to transport it.

Every 5,000-ton ship which can be saved by giving England sugar from Cuba means the release of a ship which can make three trips and take a total of 3,000 soldiers from the United States to France.

If we can save the Allies from taking any Java sugar in 1918, we will release for transport purposes enough ships to carry over to the Western front and supply about 150,000 to 200,000 soldiers.

At the same time, we will also be giving the Allies the necessary sugar. Therefore, it is to the interest of the common cause to save ships and send soldiers.

The American Sugar Refining Company has put forth every possible effort to keep up the supply of sugar for the United States, even in limited quantities, and to stabilize the price to the consumer.

In order to enable the widest possible distribution of sugar—so that all may have some sugar—we distribute Domino Cane Sugars in convenient-size packages.

These small-unit cartons and cotton bags enable grocers to limit their sales so that waste and hoarding may be prevented.

It will be necessary for grocers and consumers to watch carefully their distribution and purchases during the approaching period of readjustment. The refineries are now starting up and supplies of raw sugar coming forward, but it will take weeks, and possibly months, for the return of normal conditions.

Housewives can cooperate with this plan by buying these package sugars.
